- 3 Button Remote with Intellicode® Dual Frequency Security

- **Integrated Aladdin Connect Wi-Fi Benefits:**

Security – Instantly know if someone is operating your garage door

Convenience – The 2128 operator includes the Aladdin Connect Wi-Fi System that lets you remotely operate your garage door from anywhere with the Aladdin App. You will be notified whenever your garage door is opened and closed. The virtual key feature allows you to grant temporary access for a set period of time, a range of time or permanently for up to 20 users. Time based features allow you to schedule your door to close at a specific hour or automatically close after a certain length of time. Aladdin Connect is compatible with Alexa, Google Home, Alarm.com, Brilliant, Clare Controls, Control 4, Samsung Smart Things and Crestron smart home integrators. Genie has compatibility with more Smart Home Devices than any other GDO on the market.

Tracking – Know both the date and time of each operation of your garage door and who opened it with Aladdin Connect
